1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed stabilization system for a drogue body. Specifically, the prior art fails to show a flexible joint located on a drogue between a rotatable mass and a connector to a refueling hose. The prior art also fails to show a drogue spin stabilization kit that attaches to a prior art drogue. It is noted that the prior art showing refueling drogues with rotatable masses only have masses which are structurally integrated within the drogue and it is not obvious to modify these references by saying the rotating elements could form a separate kit that could be attached to another drogue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-187 are allowed.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 571-273-6901. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
